

Spouwankerplug

This Spouwankerplug is specially designed for secure and efficient installation of insulation materials in combination with cavity wall ties. The robust construction ensures quick, reliable fastening and provides a durable connection between the insulation, the substrate and the wall tie system.

Product Features

- **Optimized for Inslagankers**
Precisely engineered expansion ensures perfect engagement of the wall tie within the fastener.
- **Fast & Reliable Installation**
The Inslaganker guarantees clean setting behavior and ensures complete expansion of the fastener.
- **High Plate Stiffness**
Ensures a stable, smooth insulation surface thanks to a plate stiffness.

Applications

- Fastening of insulation boards in combination with Inslagankers
- Designed for use in lightweight to medium-density substrates

Key Benefits

- High pull-out performance and reliable anchor engagement
- Energy-efficient solution with minimized thermal bridging
- Stable, long-lasting and level insulation surface
- Ideal for demanding facade constructions

Art. No.	Fixing Diameter [mm]	pcs / box	pcs / pallet
ENN-KKI-120N/NS	10 x 120 mm	250	10.000
ENN-KKI-140N/NS	10 x 140 mm	250	8.000
ENN-KKI-160N/NS	10 x 160 mm	250	8.000
ENN-KKI-180N/NS	10 x 180 mm	250	6.000
ENN-KKI-200N/NS	10 x 200 mm	250	4.500
ENN-KKI-220N/NS	10 x 220 mm	250	4.500
ENN-KKI-260N/NS	10 x 260 mm	200	3.600
ENN-KKI-300N/NS	10 x 300 mm	200	3.600
